ASAR is the epitome of typical STRÖHER ceramics that became a series: application oriented understatement ceramics that provide more opportunities. Its design is not too rustic but also still not “porcelainish”. Its format is nothing like finely checkered nor too large. Its visual appearance is like a mixture of dry savannah soil and drifted Sahara sand. Thanks to the rectangular mini large format of 25 x 50 cms maximum effects can be achieved by ASAR. From outdoors to indoors – even

when renovating suboptimal or small surfaces. That there is also a wide range of trim pieces available goes without saying and they all come in modern 'loft' design.
